

2019 NOVEL CORONAVIRUS DISINFECTION PROCEDURES

Address
the
Threat

HANDWASHING can be one of the most important ways to prevent any kind of viral outbreak.

CLEAN before **DISINFECTING**

Cleaning first is the best way to ensure proper disinfection. [Read](#) an article from our R&D Section Head, Michael Kupneski, on products that can do both.

Pay special attention to **HIGH TOUCH SURFACES** when cleaning and disinfecting. Prioritize to clean these areas the most frequently.
