- Accommodates most standard metered aerosols.
- Sprays at intervals of 5, 15 or 25 minutes.
- Red light indicates low battery power.
- LED green light shows battery is operating.
- Power supply:
- Aerosol dispenser: 24 VAC 50/60 Hz, 50 mA.
- Foam dispenser: 24 VAC 50/60 Hz, 50 mA.

Try Scent Layering to Create a Distinctive Scent

With so many great fragrances available, it can be difficult to pick one scent you like. If that's the case, why not try two scents in combination? You can enjoy a variety of scents that give your room or office a unique, distinctive aroma.

Quite simply, fragrance layering is the use of two scents that are close in smell to create a whole new fragrance. Like using Impact Products' Lemon Frost Metered Aerosol Cartridge with the Citrus Zest Z-Screen™ Urinal Screen. Or try the Ocean Breeze Aerosol Cartridge with the Winter Frost Z-Screen. We have provided a suggestion of Scent Combinations with the table below. Just make sure you pick scents within the same fragrance family: fruit, floral, food or fresh. There is one exception to this rule, however. You can safely pair food and fruit scents.

So if you don't find just the "right" aroma for your home or office, why not try 2? We think you will be pretty amazed at what you will come up with.

Metered Aerosol Cartridge Scent

- 325BD Bayberry Spice
- 325CL Clean Blast
- 325L Linen Fresh
- 325A Apple Zing
- 325M Mulberry Mist
- 325O Orange Zest
- 325W Watermelon Slice
- 325CH Cherry Blossom
- 325V Vanilla Bean
- 325LF Lemon Frost
- 325C Cinnamon Twist
- 325B Ocean Breeze
- 325MA Tropical Mango

Suggested Placement of Metered Aerosols

Metered air fresheners deliver fragrance up to 30 days.
Prevention of Odor Problems

- Best way to prevent odors is to practice frequent cleaning. With budget cuts, this is not always possible.
- Office buildings find frequent odor problems after floor drains are exposed to urine, drain water
  being relieved in the drains. Solution: Use Z-Drain Odor Control Device

Treatment of Odor Problems

- Ongoing: Urine (mats) and floor drains (Z-Drain)

Vacuum bags should be emptied on regular basis to prevent spreading odors

Dirty mops transmit odors throughout facility

Office wastebaskets may harbor coffee grounds and drippings

A trash can often be found at the bottom of the receptacles

Solution: Urinal and commode mats

Sewer gas

Office buildings frequent odor problems = floor drains dry out emitting

Using odor control products

1. Deodorizers can be used in different ways:
   1. Keeping equipment clean
   2. Frequent cleaning
   3. Locating and eradicating the odor’s source
   4. Using odor control products

Deodorizers:

- Odor control products should be products with low perfume levels that act more like a
  fume suppressor than a cover-up (to compensate for what people are allergic to and prefer)
- When choosing fragrances, it is important that air dispensers, urinal cakes and cleaning
  products emit the same scent to present uniformity in the restroom (fragrance compatibility)

Deodorizing Mats:

- Blocks placed in toilets and urinals that apply enzymes and deodorizers with
  each flush
- By applying fragrance in the air through wall mounted dispensers (most popular)
- Odor control products should be products with low perfume levels that act more like a
  fume suppressor than a cover-up (to compensate for what people are allergic to and prefer)
- When choosing fragrances, it is important that air dispensers, urinal cakes and cleaning
  products emit the same scent to present uniformity in the restroom (fragrance compatibility)

Frequent cleaning

Keeping equipment clean

Locating and eradicating the odor’s source

Using odor control products

Additional Odor Control

- Extraordinarly long lasting, odor neutralizing, water based, nontoxic fragrance
- Deodorizing Odor Control Device
- Z-Drain Odor Control Device
- Deodorizing Mats
- Odor Neutralizing Urinal Screen
- Z-Screen Odor Control Urinal Screen
- Z-Mat Odor Control Urinal Screen Mat

Prevention of Odor Problems

- Best way to prevent odors is frequent cleaning. With budget cuts, that can not always be possible. So to prevent odor problems:
  - Office buildings frequent odor problems = floor drains dry out emitting foul odor. Solution: Blocks placed in toilets and urinals that apply enzymes and deodorizers with each flush.

Treatment of Odor Problems

- Removing odor comes down to 4 basic procedures:
  1. Identifying and eliminating the source of odor.
  2. Using odor control products.
  3. Frequent cleaning.
  4. Keeping equipment clean.

Deodorizers can be used in different ways:
- Wall-mounted dispensers with fragrances.
- Urinal blocks that release fragrance over time.
- Floor drains and other drains that emit foul odors need special solutions.
- Deodorizing mats that place odor control products in specific areas.

Tips

- Odor control products should be products that have top parfum levels that not only mask malodors but also create a counterpoint for gc (co) (counterbalances).  Fascinating odors from natural perfumes and scents.

Deodorizing Urinal Screen

- Z-Screen™ Urinal Screen: A unique design prevents "splash back" and reduces cleaning time. Contains enzymes to clean the urinal and eliminate odors. New plastic material contains up to 12x more fragrance than vinyl screens. Strong, gradual fragrance release ensures 30-day use. Included screw and wing nut accommodates all types of drains. Dissolves grease and eliminates fruit flies.

Z-Drain™ Odor Control Device

- Z-Drain™ Odor Control Device: A drain device includes a block containing enzymes, fragrance and cleaners that eliminate gases and odors. Lasts 4 to 6 weeks, dependent on usage. Keeps restroom maintenance easier. Protects floors from stains and uric acid damage. Updated design allows for better absorption and compliments new Z-Series™ of odor control devices. Contains Fungicide (Busan® 1 1-M1) to fight germs; combats odors and refreshes the area. Common areas: Urinal and commode, base of toilet, and floor transitions. Use in floors, toilets, and urinals.

13 scents

- sweet, crisp apple scent with a hint of cinnamon and nutmeg
- fresh fragrance with a cool blast of bay leaves, forest woods and a touch of spicy musk
- a soft cherry floral with vanilla, oriental woods and a hint of jasmine
- a cinnamon delight twisted with sugary sweet top notes and nutmeg
- a blend of juicy oranges with a hint of sweet vanilla
- vanilla with a hint of butter, chocolate and cream
- juicy, mouth-watering fresh watermelon
- tart mulberry sweetened with raspberry and a touch of vanilla
- captures the fresh cool sea with hints of sea salt, jasmine, rose and lily
- a blend of spicy nutmeg and clove base notes
- a clean and sensual fragrance with a touch of citrus and pine
- with raspberry and a hint of cinnamon
- with a hint of rich vanilla
- and red hot mid notes
- with a hint of mimosa
- with a spicy end note
- with a hint of rich vanilla
- with a spicy end note
- with raspberry and a hint of cinnamon

New 326 Metered Aerosol Dispenser
- On/Off switch
- attractive, sleek design complements Impact's "Foam-eze" soap dispensers
- powered LED green light shows battery is operating
- red light indicates low battery power
- sprays at intervals of 5, 15 or 25 minutes
- working time mode options of Day, Night or 24 hours
- accommodates most standard metered aerosols
- key lock mechanism
- uses two "D" batteries, not included
- 8.75" H x 3.8" W x 3.19" D

Basic 327 Metered Aerosol Dispenser
- attractive, sleek design
- accommodates most standard metered aerosols
- preset to spray at 15 minute intervals
- uses two "D" batteries, not included
- 8.75" H x 3.8" W x 3.19" D

325 Series Metered Aerosol Cartridges
- 7 oz. can with universal actuation tip fits most cabinets
- made of recyclable steel
- contains no CFC's, HCFC's or any other ozone depleters; meets California VOC regulations
- can be used as a counter spray
- to be mounted 7 feet from the floor and at least 8 feet away from exposed food
- formulated with neutralizing counteractant to encapsulate malodors such as sulfides (from eggs, garlic and onions), amines (from fish) and pyridine (from tobacco smoke)
- contains 3900 sprays, 10-30% more than most competitors
- freshens room up to 6000 cubic feet with a fine mist spray
- lasts 30 days when sprayed every 15 minutes on Day or Night settings
- lasts 60 days when sprayed every 15 minutes on 24 Hour setting
- 13 fragrances available
- powered LED green light shows battery is operating
- red light indicates low battery power
- working time mode options of Day, Night or 24 Hours
- sprays at intervals of 5, 15 or 25 minutes
- accommodates most standard metered aerosols
- key lock mechanism

Try fragrance layering to create a distinctive scent
With so many great fragrances available, it can be difficult to pick one scent you like. If that's the case, why not try picking one specialty "layering" the fragrances. You can enjoy a variety of scents that give your room or office a unique, distinctive aroma.

Quite simply, fragrance layering is the use of two scents that are close in smell to create a whole new fragrance. Like using Impact Produtcs' Lemon Frost Metered Aerosol Cartridge with the Citrus Zest Z-Screen™ Urinal Screen. Or try the Ocean Breeze Aerosol Cartridge with the Winter Frost Z-Screen. We have provided a suggestion of Scent Combinations in the table below. Just make sure you pick scents within the same fragrance family: fruit, floral, food or fresh. There is one exception to this rule, however. You can safely pair food and fruit scents.

So if you don't find just the "right" aroma for your home or office, why not try 2? We think you will be pretty amazed at what you will come up with.

Like using Impact Product’s Lemon Frost Metered Aerosol Cartridge with the Citrus Zest Z-Screen™ Urinal Screen. Or try the Ocean Breeze Aerosol Cartridge with the Winter Frost Z-Screen. We have provided a suggestion of Scent Combinations with the tables below. Just make sure you pick scents within the same fragrance family: fruit, floral, food or fresh. There is one exception to this rule, however. You can safely pair food and fruit scents.

So if you don’t find just the “right” aroma for your home or office, why not try 2? We think you will be pretty amazed at what you will come up with.
