

WHEN IT MATTERS MOST...

OUR MOST POWERFUL 9V BATTERY EVER!

DURACELL®

HIGH ENERGY DENSITY 9V ULTRA LITHIUM

- Lasts up to 50% longer
- 10 year shelf life
- More consistent power over the life of the battery
- 80% more energy versus Duracell 9V Alkaline batteries
- 25% lighter than normal alkaline 9V
- The ability to “store power” is doubled vs. Duracell 9V alkaline
- The battery has a high-tech terminal switch that prevents overheating when used wrongly
- Works in temperatures between -40°C to +60°C

WIRELESS COMMUNICATION APPLICATIONS

- Cargo container location beacons
- Electronic toll collection systems
- Military training targets
- Laser tags
- Remote infrared mice
- Silo transducers
- Vehicle/vessel tracking sensors
- Wireless remote controls
