GET READY FOR THE FLU SEASON

OFFICE PREPARATION GUIDE

Your office is ready for productivity: plenty of coffee, desks and paper. But **is your office ready for the flu?**

Disease often spreads through touch and **flu viruses can live on hard surfaces for up to 48 hours!**

Fortunately **four simple workplace behaviors were demonstrated to reduce the risk of infection by 77%:** proper hand washing, the use of disinfecting wipes in communal areas and personal workspaces, and the use of hand sanitizer and tissues when blowing/wiping the nose².

Don't let the flu wipe out your office! **Disinfect high-touch surfaces** like desks and door knobs today!

Get Your Office Ready for the Flu

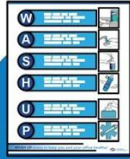

1 Place one canister of Clorox® Disinfecting Wipes in the reception area, one in the restroom and one in the breakroom.

2 Place a small Clorox® Hand Sanitizer pump on each desk.

3 Place a tissue box on each desk.

4 Post the Clorox® Cold & Flu prevention poster throughout the office – **WASH UP** today!

Running short on flu fighting supplies? Stock up today!
