PURELL® and GOJO® FMX™ Dispensing Systems with the FMX Security Enclosure

Effective cleansing and sanitizing with lockable FMX Security Enclosure

Safeguard your health and well being.

GOJO Foam Handwash and PURELL Instant Hand Sanitizer Foam provide effective germ-fighting protection. Use to improve the health and well being of those under your care and supervision.

Illness and infection are critical concerns in populations living in close proximity, including the following:

- Correctional Facilities
- Schools
- Military Barracks
- Hospitals

Protecting dispensers against damage and tampering in these environments is important in maintaining an effective hygiene program. The FMX Security Enclosure provides a durable, easy-to-lock metal enclosure to help protect against misuse and vandalism.

Rugged FMX Security Enclosure prevents tampering.

- Lockable*, tamper-proof FMX Security Enclosure is designed for correctional facilities and environments where dispenser security and durability is critical
- Available for use with 1200 mL foam sanitizer, as well as with 2000 mL foam hand soaps and body wash
- Made of powder coated steel for impact and corrosion resistance
- Small footprint for big space savings

GOJO and PURELL FMX systems are part of a complete line of gentle and effective hand hygiene products. For more information call 800-321-9647 or visit www.GOJO.com
