Subject: **Discontinuation of Triclosan-Containing Products in Food Processing**

GOJO recently launched the PURELL SOLUTION™ for Food Processing. As we continue to phase out Triclosan from our product portfolio in alignment with our Sustainable Chemistry and Packaging Policy, GOJO will no longer manufacture Triclosan-containing GOJO® E2 Foam Sanitizing Soap and GOJO® E2 Sanitizing Lotion Soap, effective July 2019. These formulations will be discontinued as existing inventory is depleted.

GOJO remains committed to partnering with you to plan and transition remaining Triclosan SKUs to alternatives. The discontinued SKUs and their recommended replacements are listed on the next page. We will work with you in this transition to help choose the solution that best meets your needs.

Next Steps

- Please reference page 2 for the affected SKUs and timing
- Partner with your GOJO Representative to discuss your inventory needs and forecasts, and establish a transition plan to convert to GOJO® Triclosan-free alternatives
- Update your system with new SDS sheets as you begin to receive new product

If you have any questions, please contact your GOJO Representative or GOJO Customer Service at 1.800.321.9647.

Stay well,
