Nosocomial infections are on the rise:

- More than 2 million nosocomial infections occur in the USA each year¹
- There has been a 36% rise in nosocomial infections over the past 20 years²
- Nosocomial infections cost $4.6 billion annually in treatment and extended care¹

Fight back with the LYSOL® I.C.™ Office Practice Program that provides...

- Trusted LYSOL® I.C.™ brand of infection control products for maintaining clean, healthy surfaces in your office. Formulated to kill harmful microorganisms such as TB, Rhinovirus, Rotavirus, Poliovirus, HIV-1 (AIDS Virus) and Hepatitis A. Kills bacteria, viruses and fungi on hard, nonporous surfaces like chairs, tables, countertops and other office surfaces to help protect your staff and patients. See product details on back.

- Proven results:
  - Studies show that LYSOL® I.C.™ Disinfectant Spray is effective at reducing the transmission of Rhinovirus Type 14 and Rotavirus⁴ — the leading causes of the common cold and infectious diarrhea, respectively.
  - In a long-term care study published in AJIC, a comprehensive infection control program, including the use of selected LYSOL® I.C.™ and Professional LYSOL® Brand products, helped deliver measurable reductions in respiratory infections⁶.

- Microbiological Control manual for easy to understand training about microbiology and disinfection (order item: 400356-0104).

- Technical Support

Trust LYSOL® I.C.™ brand products to help provide similar results for your medical environment.
